Dear Floyd,

Please excuse the haste and brevity of my response to your fine card. I've been without this typewriter for three days while it got its first cleaning in some 25 years and I'm far behind.

We both believe you have done a fine bootstrapping job and that you have made a good and useful life for yourself.

Whatever help or inspiration you got, you did it!

And about that you should feel good.

We do appreciate what you said and are glad.

All the best in the holiday season and in the years ahead,

sincerely,

Harold
